Mariuccia Teroni

Founder & Senior Vice President Operations di FacilityLive

Mariuccia Teroni è un'esperta di tecniche editoriali e trattamento delle informazioni. Si è dedicata per oltre vent'anni alla sperimentazione e all'applicazione della tecnologia a progetti innovativi per l'editoria, la comunicazione e l'organizzazione delle informazioni. Ha collaborato con i più prestigiosi nomi del settore ottenendo riconoscimenti anche a livello internazionale. Ha studiato e curato la realizzazione d'importanti archivi digitali; si è occupata del recupero, organizzazione, digitalizzazione e catalogazione di giacimenti informativi; coordinato processi di riconversione tecnologica di primarie case editrici; gestito flussi e processi produttivi complessi; prodotto, coordinato, redazionato e revisionato innumerevoli prodotti editoriali cartacei e multimediali. Possiede una conoscenza professionale del ciclo di produzione completo impiegato nell'editoria web, multimediale e tradizionale, delle problematiche tecniche di lavorazione, delle esigenze grafiche e della pratica dei processi industriali. È relatrice a convegni sull'argomento ed è stata docente di

Laboratorio di Editoria Multimediale presso l'Università degli studi di Milano. Ha scritto per Apogeo (Feltrinelli) il "Manuale di redazione" e il "Manuale di grafica e stampa". È founder, con Gianpiero Lotito, di FacilityLive, la software company italiana che ha realizzato e brevettato una piattaforma per la gestione delle informazioni basata su un search engine semantico di nuova concezione e riconosciuta da brevetti prestigiosi in oltre 40 paesi nel mondo (tra cui quelli dell'Unione Europea, USA, Giappone e Israele). FacilityLive è stata definita da Michael Maoz, VP Distinguished Analyst di Gartner, "A phenomenal young technology company". Mariuccia è per Anitec "Ambassador" per il progetto europeo "E-skills for Jobs 2014" e "Digital Icon" per il progetto europeo "Watify - Stimulating Digital Entrepreneurship".

Gianpiero Lotito

Founder & CEO di FacilityLive

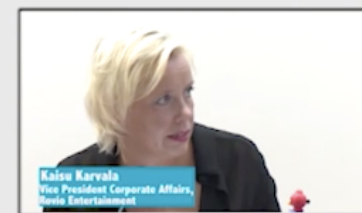

Gianpiero Lotito dal 2010 è il founder, con Mariuccia Teroni, di FacilityLive, una startup che sta affermando sul mercato internazionale un motore di ricerca di nuova generazione. FacilityLive ha brevetti in 42 paesi, tra i quali USA (ottenuto con Google come "prior art"), Europa, Giappone e Israele. Nigel Kendall, technology editor del Times, l'ha definita "una tecnologia che potrebbe cambiare ogni cosa sul Web".

FacilityLive è "Gartner Cool Vendor 2014 for CRM Customer Service and Support".

Gianpiero, data scientist di ultraventennale esperienza, dal 2000 al 2006 è stato docente di Editoria Multimediale presso l'Università degli studi di Milano. Ha pubblicato nel 2008, durante la progettazione di FacilityLive, per Bruno Mondadori "Emigranti digitali", con la prefazione di Peter Sondergaard, direttore mondiale della ricerca di Gartner.

Nel 2013 ha pubblicato l'e-book "Breve storia delle startup" con Sperling.

Dal 1987 al 2005, con Mariuccia Teroni, ha creato un centinaio di progetti pioneristici, per grandi editori, per l'applicazione di tecnologie digitali al mondo editoriale. Da questa esperienza è nata l'idea di FacilityLive.

CodeWeek

INCLUSIVE IS: A EUROPEAN SEARCH ENGINE FOR CODING

The screenshot shows the eu2coding.facilitylive.com website. The browser address bar displays 'eu2coding.facilitylive.com' and the page title is 'Results - EU2Coding'. The main navigation bar includes 'Home' and 'Sign Out'. A search bar contains '#EU2Coding' and a search input field with 'python' and 'try: javascript'. Below the search bar, there are icons for 'Events :82', 'Events :82', 'CLB :2', 'FOC :3', and 'Amba :2'. The page is divided into several sections:

- 82 Events:** Lists two events:
 - afpy Afpyro-be: Python, An Off-roader Programming Language** (Belgium): Starts on 2014-10-02 at 18:30, ends on 2014-10-02 at 22:00. Location: Rue Des Archers 2, 7000 Mons, Belgium.
 - Api Hackathon - Pori** (Finland): Starts on 2014-10-15 at 09:00, ends on 2014-10-15 at 20:00. Location: Pohjoisranta 11, 28100 Pori, Finland.
- 82 Events Map:** A map of Europe showing event locations with markers and counts: 49 in Spain, 30 in Italy, and 3 in Finland.
- 2 Coding Lessons for Beginners:**
 - A Taste Of Python Programming** (Grok Learning through Codeorg): Choose from 3 activities designed to give you your first experience programming.
 - Learn Python Programming** (Grok Learning through Codeorg): An introductory course using the programming language Python for people with no programming experience.
- 3 Full Online Courses:**
 - A Gentle Introduction To Programming Using Python (january lap 2008)** (Opencourseware): This course will provide a gentle introduction to programming using Python™ for highly motivated students with little or no prior experience in programming computers.
 - A Gentle Introduction To Programming Using Python (january lap 2011)** (Opencourseware): This course will provide a gentle, yet intense, introduction to programming using Python for highly motivated students with little or no prior experience in programming.
- 2 Ambassadors:**
 - Reinis Zitmanis** (Latvia): Promoter of advantages, the Digital age can bring both for our work and lifestyle. Tech entrepreneur, specializing in online marketing and sales solutions, training and integration. Tech journalist and speaker. Python and Swift enthusiast.
 - Richard Blechinger** (Austria): 17. Learning new things every day. Lover of Rails and AngularJS. Proficient in the arcane magic of the web as well as Python and Ruby. Usually busy with work or travelling around in Austria. Sometimes I

On Monday 13 October 2014 in Berlin, Google's Chairman **Eric Schmidt** stated:

“You often hear people talk about search as a solved problem. But we are nowhere near close. Try a query like ‘show me flights under €300 for places where it’s hot in December and I can snorkel’. That’s kind of complicated. Google needs to know about flights under €300; hot destinations in winter; and what places are near the water, with cool fish to see. That’s basically three separate searches that have to be cross-referenced to get to the right answer. Sadly, we can’t solve that for you today. But we are working on it”.

FACILITYLIVE HAS SOLVED THIS PROBLEM AND PATENTED THE ENABLING TECHNOLOGIES!

WHY COOL?

“Most Knowledge Management vendors can only search content via a nonintegrated list, but FacilityLive can aggregate and correlate, through contextual mash-ups, all customer information, both structured and unstructured, from different source systems **in a unique, appealing, single interface**”

“**This unique combination of technology and methods** is patented across 41 countries”

General Information

facility live

FacilityLive is a new, highly disruptive, patented search platform that addresses all corporate, public administration and consumer information sources. These domains are 30 times larger than the public web (indexed by Google), and are doubling in size every two years.

The Company delivers an entirely new search paradigm, which understands the structure, meaning and context of information (semantics), and uses that understanding to deliver precise search results.

According to Gartner, FacilityLive's capabilities are unique, compelling and defensible.
