### TOGETHER WE MAKE EUROPE WORK

Socialists and Social Democrats from the countries of the European Union have worked together in the European Parliament to safeguard employment and to create more and better jobs, to promote a cleaner environment, to secure stability in Europe and to promote peace in the world. On 1<sup>st</sup> May 2004 we were joined by Socialist and Social Democratic Members of Parliament from all ten new member states who are working together with us to create a strong, social Europe that provides security for its people.

Together we will fight to safeguard employment and to create more and better jobs.

Together we will fight to maintain the European social model and our social security systems, whilst at the same time having the courage to reform these systems according to today's needs.

Together we will ensure that women and men are treated equally, in all situations and at all levels.

Together we give priority to the education of young people and to investment in the future.

Together we will promote prosperity and modernise our economies but we will also guarantee equal access for all to good quality services.

Together we will put in place safeguards to control unlimited and unregulated immigration, and at the same time we will safeguard human dignity and basic civil rights.

Together we demand that a good balance between economy and environment be maintained - sustainable development and growth are our priority.

Together we will increase consumer protection.

Together we will promote peace and conflict prevention - in Europe and in the world.

Together we will ensure the respect for fundamental human and citizens' rights, both inside and outside the European Union.

Together we will make the entry of ten new countries to the European Union a success and a real guarantee of stability in Europe.
